

Power Electronics and Drives (PEAD) is an open access, peer-reviewed journal which aims to publish original scientific papers (research and survey papers) on new theoretical developments, novel applications, and case studies regarding advances in power electronics and electrical drive systems. Articles published in our journal cover full scope of power electronics and its applications in electrical drives, renewable energy systems and mechatronic systems.

- **From June 2026** the journal has its third **Impact Factor of 1.7**.
- **From June 2026** the journal has its first **CiteScore for 2025 - 2.8**, **SNIP for 2025 - 0.857**, **SJR for 2025 - 0.374**
- **From April 2025** Power Electronics and Drives is indexed in Scopus
- **From June 2025** the journal has its second **Impact Factor of 1.5**.
- **From June 2024** the journal has its first, inaugural **Impact Factor of 0.7**.
- Power Electronics and Drives is now listed on the Ministry's list of scientific journals. From 2/12/2021, a paper in PEAD is evaluated with 20 points.
- **Since 2019 the journal is published under the patronage of the Electrical Engineering Committee of the Polish Academy of Sciences.**

News:

- **Power Electronics and Drives** achieves a significant increase in Journal Impact Factor! We are thrilled to share an exciting news that **Power Electronics and Drives** has achieved its 2025 Journal Impact Factors (JIF)™, **IF=1.7**. The journal achieved its first **CiteScore of 2.8** and an **SSNIP of 0.857**. The **SJR for 2025 is 0.374!**
