

Dear Dr. Ngô Thị Kim Chi,

A manuscript titled "**Linking Late Quaternary sequence stratigraphy with modern sediment accumulation and transport on the northeastern shelf off Mekong River Delta**" has been submitted to the Vietnam Journal of Earth Sciences (VJES) for consideration.

Given your expertise, we would be most grateful if you would consider serving as a reviewer for this manuscript. Your expert evaluation would be invaluable in assessing its scientific merit and suitability for publication in VJES.

Our standard timeframe for review is 14 days from the date of your agreement. For your convenience, the manuscript file is provided below. Please let us know at your earliest convenience whether you are available to accept this invitation. We eagerly await your response.

With best regards,

--
